MEMORANDUM FOR: Chief, Supply Division, OL

SUBJECT: Disposition of Photographic Processor [REDACTED]

25X1A 1. Subject processor was produced on a research and development contract by the [REDACTED] to meet a specific need within the Center at a cost of [REDACTED]. After a period of extensive testing, it has been determined that this item does not satisfy the requirements for which it was designed, and therefore cannot be profitably employed in the Center. This equipment, which is not charged to the accountable records on [REDACTED] is surplus to our needs.

25X1A 2. We have been advised that the Department of Agriculture can utilize this processor in their laboratory at Ashville, North Carolina, providing it is transferred to them on a no-cost basis. They will, of course, pay for the packing, crating, and transportation expenses in connection with the move. In the event that there is no other requirement for this item, it is recommended that favorable consideration be given to the proposal of transferring it to the Department of Agriculture.

25X1A

[REDACTED]
Acting Chief, Support Services Division, NPIC

Distribution:

Original + 1 - Addressee

1 - PSG [REDACTED]

1 - TSSG/TDS [REDACTED]
